

DV/ACADEMY

INFO PACK

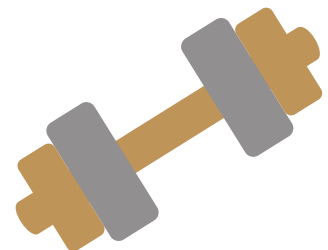

WHAT CAN I EXPECT?

Weekly check-ins to make sure that you keep moving in the right direction and keep progressing.

In-app online chat, so that you can get the answers to any questions you may have throughout your journey.

Personal workout plans built to your goals, your daily schedule, ability and injuries.

Personal nutrition plans built to help you reach your goals and tailored around your individual macros and schedule.

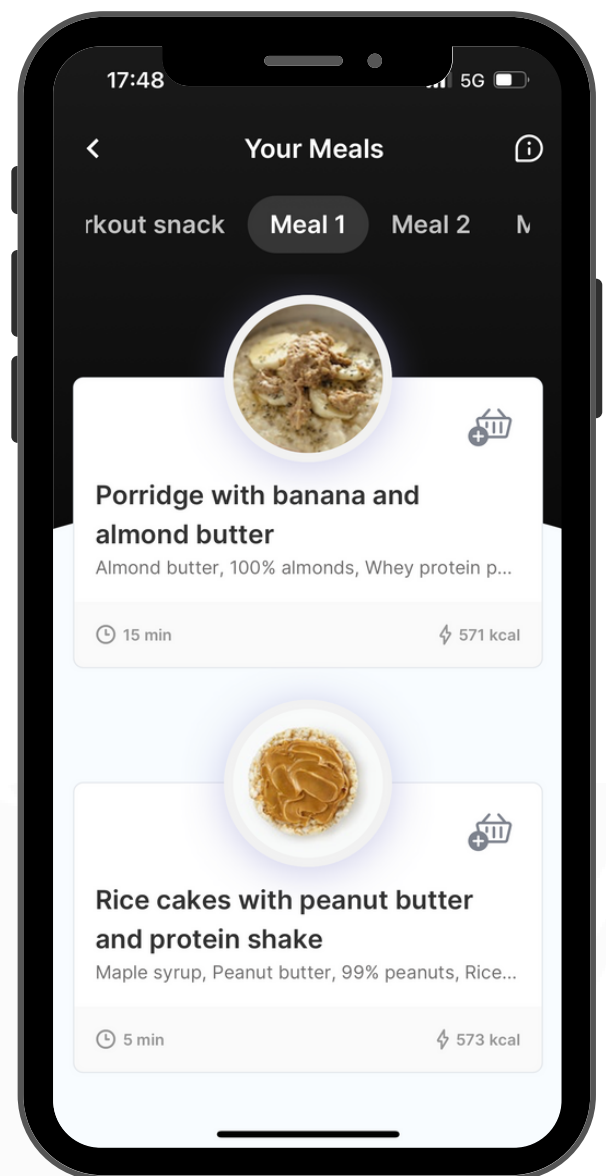

Personal App where you can keep track of your progress and have all your plans right at hand.

WHAT WILL I BE EATING?

We can't all eat the same as Mr Olympia so your meal plan is based on your goals, preferences, allergies and needs. Accurately mapped out for you to succeed, you will find various options per meal, with a full recipe, breakdown and ingredients list per meal.

Consistency is paramount to your success, so whilst we want to ensure you're fuelling your body with the right food, we also want you to enjoy it. Whilst we have programmed you recipes that fit your requirements and preferences, we also want your room for input. If there are any meals you're not so keen on, or fancy a change - let us know at your check-in and we can swap them out for something more fitting.

**NO BS, NO
GIMMICKS,
ONLY
RESULTS.**

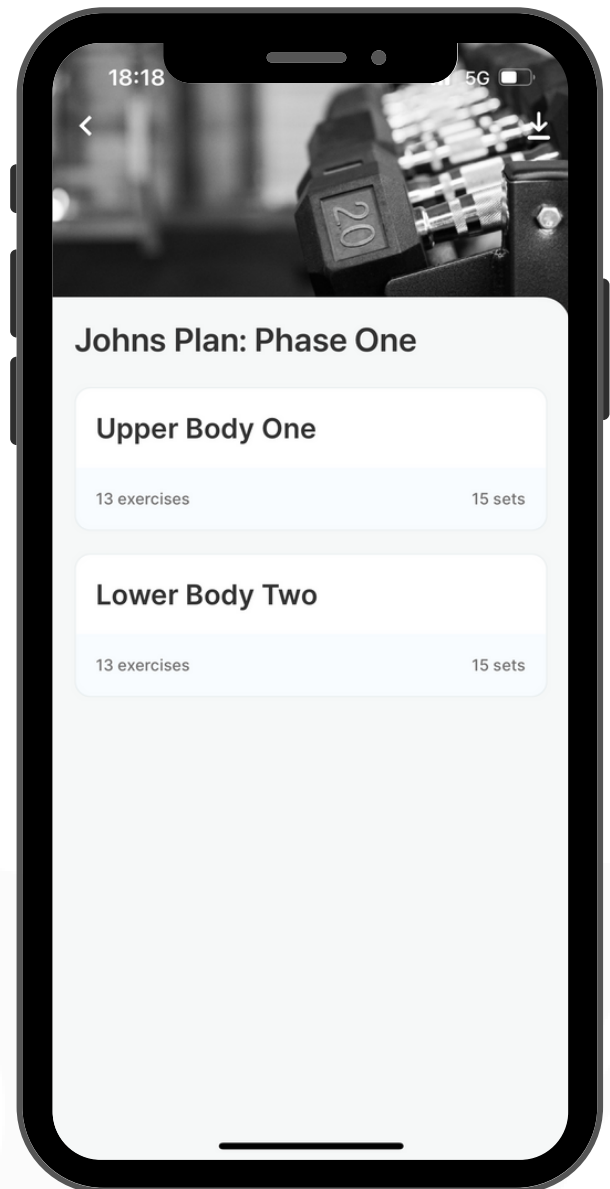

WHAT WORKOUTS WILL I BE DOING?

Dorian didn't follow the same routine across his career, so neither should you.

No matter if you have just started your fitness journey or have been at it some time, we will make sure to create a workout plan that is tailored to your goal and level of experience.

Whether you want to work out at home, outdoors or in the gym, we will make sure to tailor our plans to your daily life - that way training can become a natural part of your life.

Your training programme will be adapted as we go and you gain more confidence in each exercise - that way we can ensure that your progress and feel consistently challenged.

ALL IN ONE APP?

When you become a part of Dorian Yates Academy you will get access to the **DY Academy app** that will create the foundation for our partnership.

All our communication will take place via the app, and it's also via the app that you will be able to do your updates and keep track of your progress.

Both your **training and nutrition plans** will be available through the app as well. That way you will have all your plans right at your fingertips at all times! No more annoying spreadsheets!
