The background image shows a bright, modern living space. In the foreground, a large, light-colored sectional sofa is positioned on a polished floor. To the left, a large window or glass door opens up to a patio area with a swimming pool and dense tropical landscaping. The interior features clean lines, white walls, and a high ceiling with recessed lighting. A glass railing is visible on an upper level, and a kitchen area with white cabinetry is partially visible on the right.

The Problem

**There are 140M homes in the U.S.
with less than 1M homes on market.**

Buyers

With less than 1% of the homes in the U.S.
ever on the market, Buyers struggle to get
what they REALLY want!

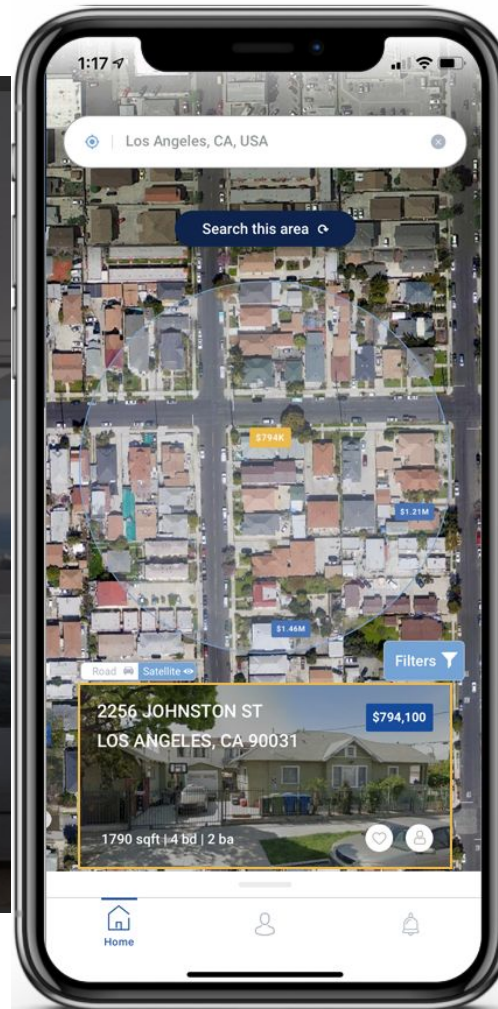

Sellers

Sellers do not know who wants to buy their homes
without the time, money and effort of actively listing.
Sellers don't know who's willing to buy their homes at
above-market prices.

The Solution

Tap into off-market inventory by sending electronic offers directly to the owners of off-market homes with the tap of an app to find your dream home.

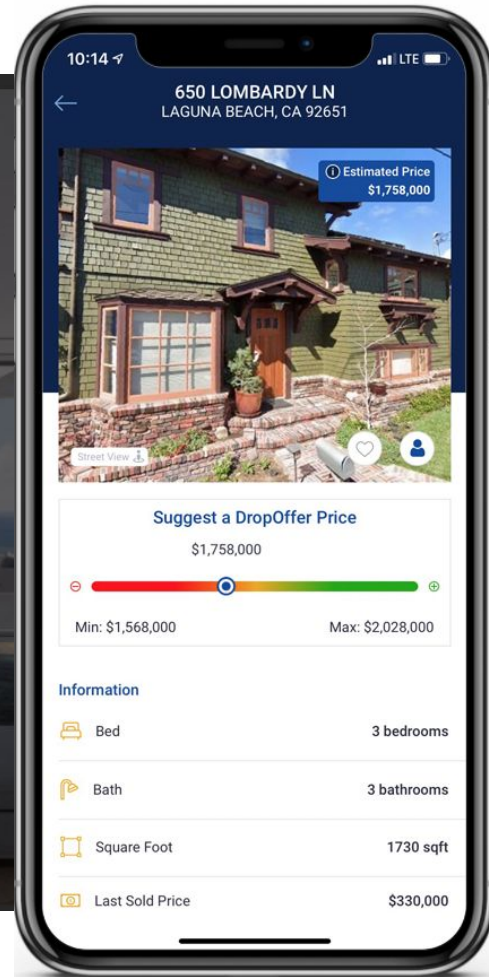

Buyers

- Submit offers quickly and electronically to off-market properties with the tap of the app
- Search and make offers to any home, any place, anywhere
- Automatically connect with agents, lenders and owners
- Close on transactions through fast, paperless processes

The Solution

Tap into off-market inventory by sending electronic offers directly to the owners of off-market homes with the tap of an app to find your dream home.

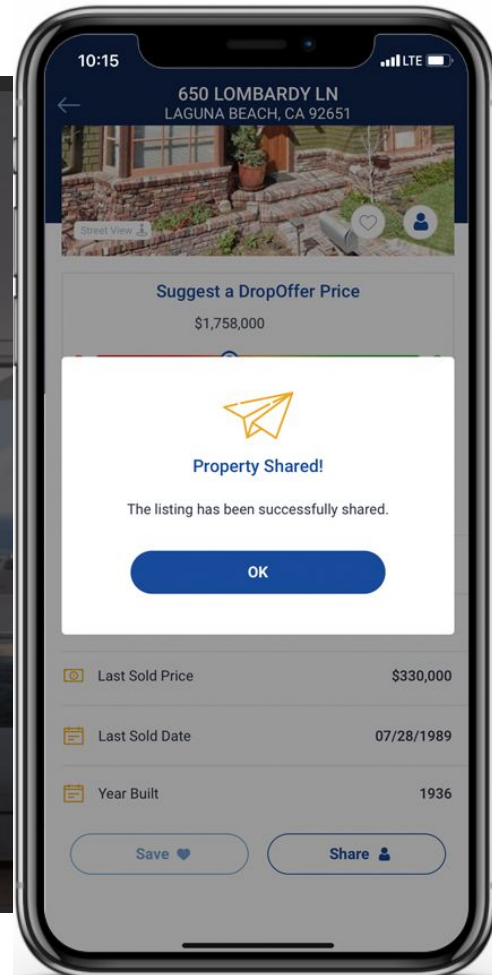

Realtors

- Access off-market inventory for clients
- Find homes clients really want
- Discover and electronically share properties with clients that are not on the MLS
- Acquire pre-qualified buyers and sellers
- Close more deals with greater ROI

The Solution

Sell your home easily,
automatically and at a premium
with the click of a button!

Sellers

- Sell your home easily, automatically and at a premium with the click of a button
- Get more money by getting above-market pricing
- Avoid wasted time and money of listing home for sale on market
- Receive real offers from pre-qualified buyers
- Receive and accept offers electronically

How It Works

01 Buyer searches for and selects a home

Find out details of the property

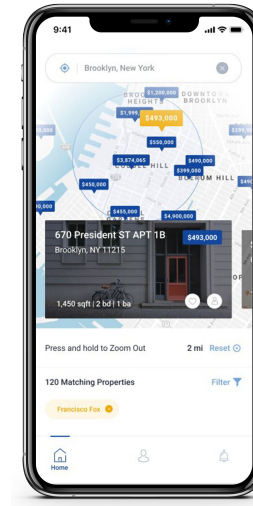

02 Buyer taps the button to send the offer.

Via patent pending technology

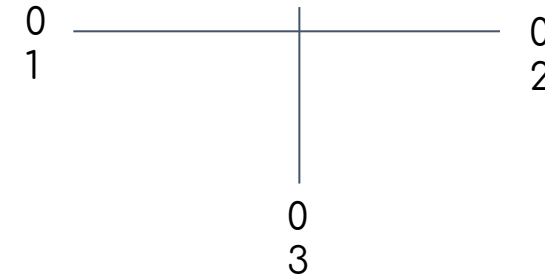

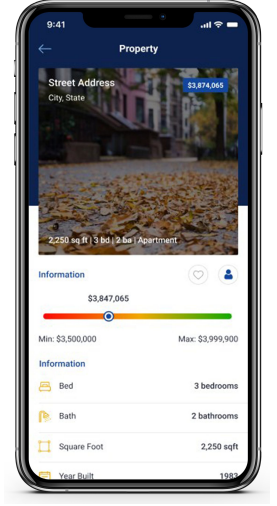

03 Homeowner receives the offer directly on their computer or smartphones.

Via targeted web and social media ads and email - if no response, then a physical mailer is automatically sent out

Why Now?

Our patent pending technology provides the capability to solve the problem now.

42% of buyers who bought a house during the pandemic **engaged in a bidding war** ¹

Housing market is still unfazed despite the pandemic as prices rose 4.3% in May compared to a year earlier ²

Demand for larger houses will increase due to the pandemic creating supply shortage in a particular sub-sector of the industry ³

2.5 million new homes will need to be built now to address the existing supply shortage ⁴

Business Model

01

OFF Market Properties: \$51m (Annually)

- DropOffer charges **25% commission** from the realtor's commission from any transaction originating on the platform

0.01% Capture Rate of annual U.S. Market = 14,000 Homes

135m Homes in U.S. with average value of \$383,000

$135m \times \$383,000 \times .04 \text{ (Commission)} \times .01\% \text{ (market capture)} \times .25 \text{ (Referral Fee)} = \$51m$

02

ON Market Properties: \$100M (Annually)

- DropOffer charges **25% commission** from the realtor's commission from any transaction originating on the platform

0.5% Capture Rate of annual U.S. Market = 26,500 Homes

5.3m Homes on market in 2019 with average sales price of \$383,000

$5.3m \times \$383,000 = \$2T \times .04 \text{ (possible commission total)} \times 0.005 \text{ (market capture)} \times .25 = \$100m$

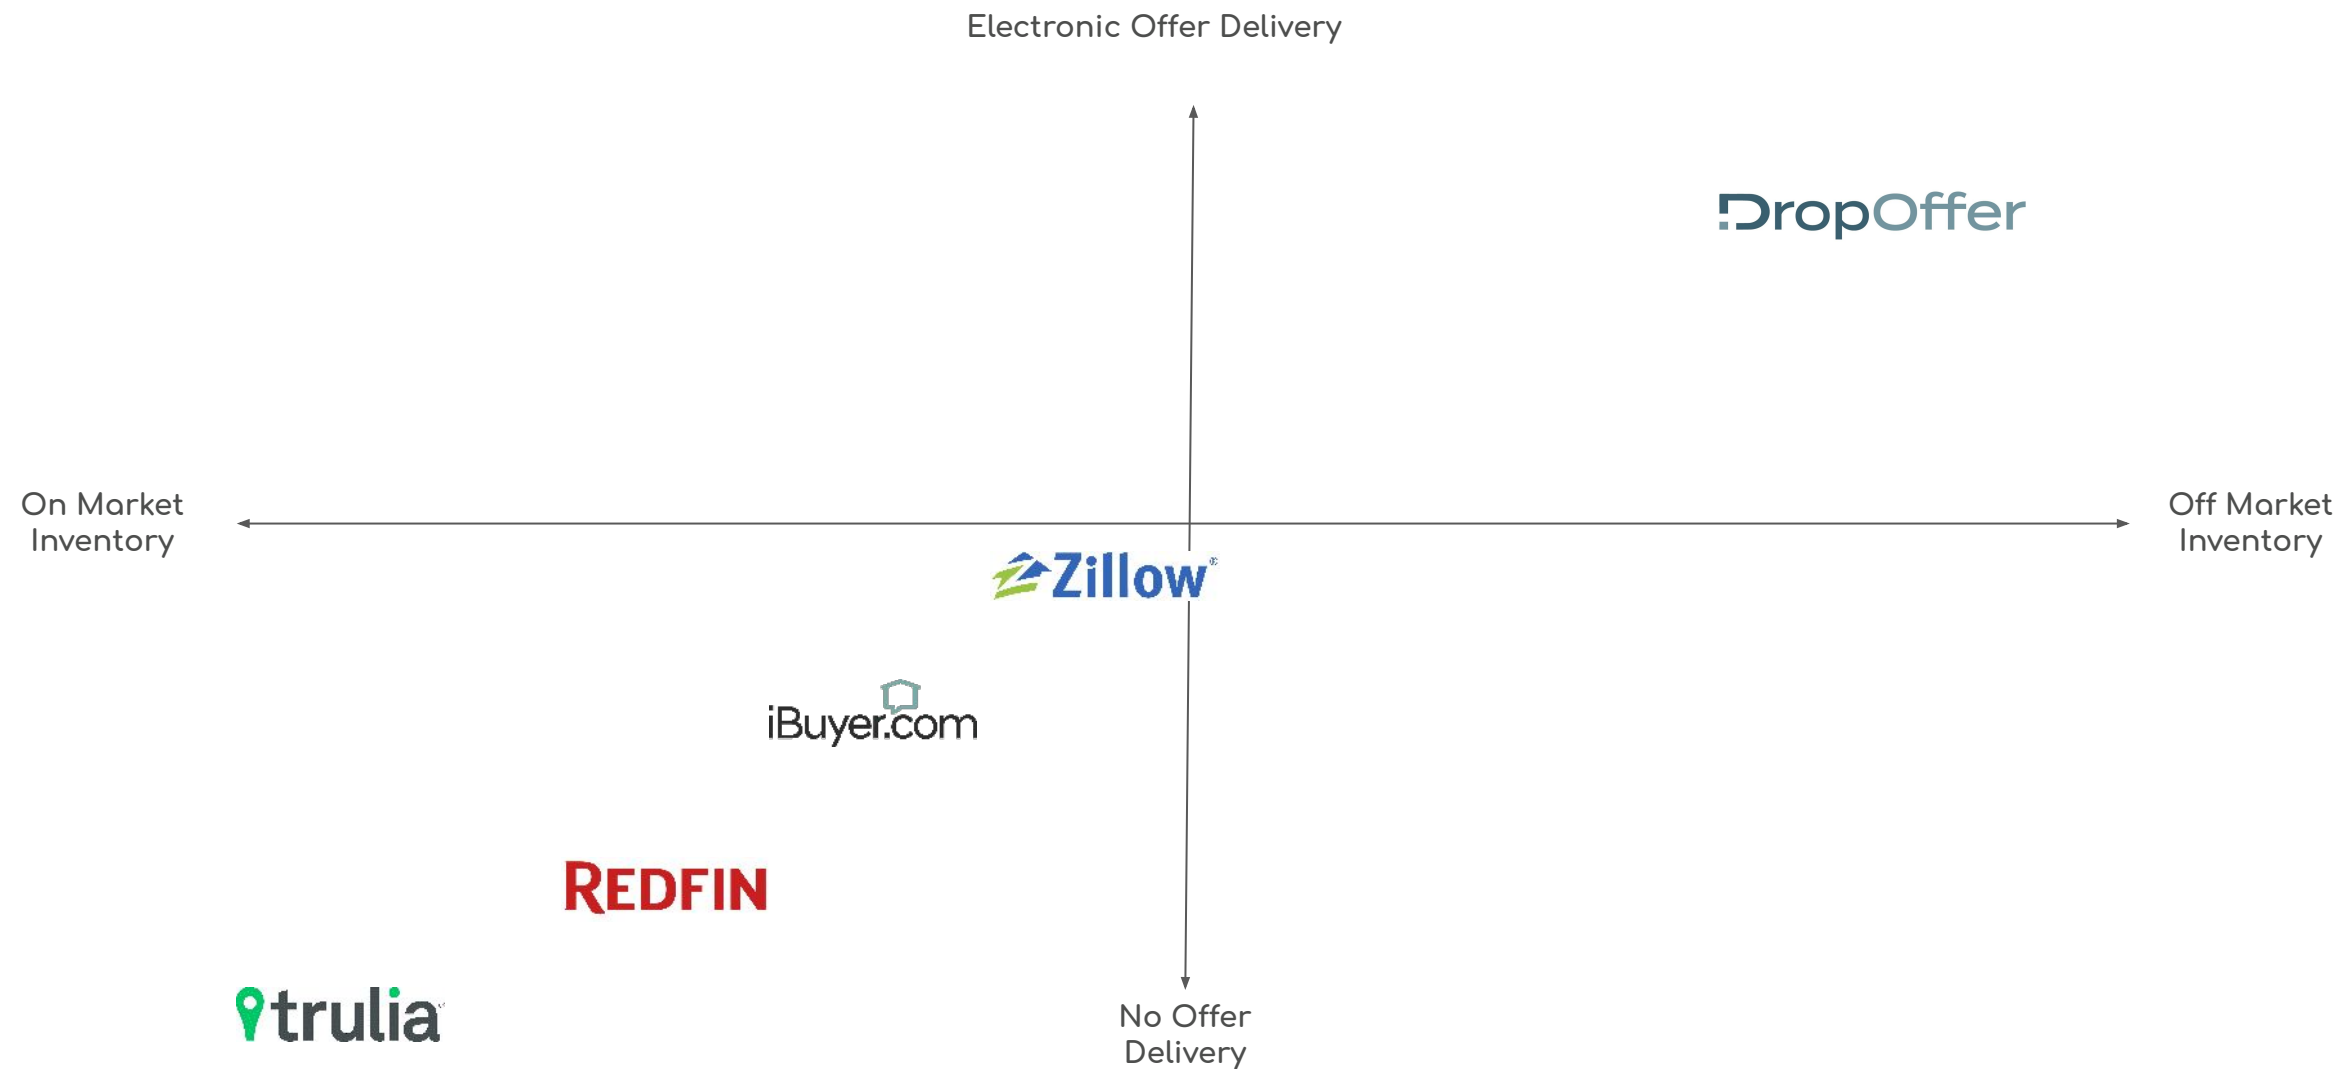

03

Subscription Fee: \$41M (Annually)

- \$249 per month x 1% realtor adoption rate of Realtors in the U.S.

$1.4 \text{ million Realtors total} \text{ (1\% = 14,000 Realtors)} \times \$249 \times 12 \text{ mos} = \$2,988 \times 14,000 = \$41,382,000$
