By: **KIMANI CLARK**

Date of Birth: 5/9/1972
(Month/Day/Year)

This is an important document. Before signing this document, it is vital for you to know and understand these facts: This document gives the person you name as your agent the power to make health care decisions for you if you cannot make decisions for yourself. Even after you have signed this document, you have the right to make health care decisions for yourself so long as you are able to do so. You have the right to revoke the authority of your agent by notifying your agent or your health care provider orally or in writing of this desire.

SELECTION OF HEALTH CARE AGENT

I select the following individual as my agent to make health care decisions for me:

Name: **CHAD CLARK**

My Agent shall have the authority to make health care decisions for me whenever I am not able to make informed decisions about my health care, either because the doctor in charge of my care (attending physician) decides that I have lost this ability temporarily, or my attending physician and a consulting doctor agree that I have lost this ability permanently.

If my primary agent cannot be contacted in time or for any reason is unavailable or unable or unwilling to act as my agent, then I select the following person to act in this capacity in order as follows:

1. Name: **BRYAN STEINER**

Powers and Rights of Health Care Agent

I want my agent to have full power to make health care decisions for me, including the power to:

- 1. Consent to the administration of medical procedures and treatments which my doctors offer, including things that are intended to keep me alive, like ventilators and feeding tubes;
- 2. Consent to the withholding or withdrawal of medical procedures and treatments, even if such procedures or treatments are intended to keep me alive, like ventilators and feeding tubes;
- 3. Decide who my doctor and other health care providers should be; and
- 4. Decide where I should be treated, including whether I should be in a hospital, nursing home, other medical care facility, or hospice program.
- 5. I also want my agent to:
 - a. Ride with me in an ambulance if ever I need to be rushed to the hospital; and
 - b. Be able to visit me if I am in a hospital or any other health care facility.

THIS ADVANCE DIRECTIVE DOES NOT MAKE MY AGENT RESPONSIBLE FOR ANY OF THE COSTS OF MY CARE.

This power is subject to the following conditions or limitations:

How my Agent is to Decide Specific Issues

I trust my agent's judgment. My agent should look first to see if there is anything in Part II of this advance directive that helps decide the issue. Then, my agent should think about the conversations we have had, my religious and other beliefs and values, my personality, and how I handled medical and other important issues in the past. If what I would decide is still unclear, then my agent is to make decisions for me that my agent believes are in my best interest. In doing so, my agent should consider the benefits, burdens, and risks of the choices presented by my doctors.

People My Agent Should Consult

In making important decisions on my behalf, I encourage my agent to consult with the following people, if they are reasonably available. By filling this in, I do not intend to limit the number of people with whom my agent might want to consult or my agent's power to make decisions.

Access to my Health Information - Federal Privacy Law (HIPAA) Authorization

1. If, prior to the time the person selected as my agent has power to act under this document, my doctor wants to discuss with that person my capacity to make my own health care decisions, I authorize my doctor to disclose protected health information which relates to that issue.
2. Once my agent has full power to act under this document, my agent may request, receive, and review any information, oral or written, regarding my physical or mental health, including, but not limited to, medical and hospital records and other protected health information, and consent to disclosure of this information.
3. For all purposes related to this document, my agent is my personal representative under the Health Insurance Portability and Accountability Act (HIPAA). My agent may sign, as any personal representative, any release forms or other HIPAA related materials.

LIVING WILL DECLARATION

Preference in Case of Terminal Condition

If my doctors certify that my death from a terminal condition is imminent, and even if life-sustaining procedures are used there is no reasonable expectancy of recovery:

- _____ 1. Keep me comfortable and allow natural death to occur. I do not want any medical interventions used to try to extend my life. I do not want to receive nutrition or fluids by tube or other medical means.

- _____ 3. Try to extend my life for as long as possible, using all available interventions that in reasonable medical judgment would prevent or delay my death. If I am unable to take enough nourishment by mouth, I want to receive nutrition and fluids by tube or other medical means.

Preference in Case of Persistent Vegetative State

If my doctors certify that I am in a persistent vegetative state, that is, if I am not conscious and am not aware of myself or my environment or able to interact with others, and there is no reasonable expectation that I will ever regain consciousness:

- _____ 1. Keep me comfortable and allow natural death to occur. I do not want any medical interventions used to try to extend my life. I do not want to receive nutrition or fluids by tube or other medical means.
- KL 2. Keep me comfortable and allow natural death to occur. I do not want medical interventions used to try to extend my life. If I am unable to take enough nourishment by mouth, however, I want to receive nutrition and fluids by tube or other medical means.

Preference in Case of End-Stage Condition

If my doctors certify that I am in an end-stage condition, that is, an incurable condition that will continue in its course until death and that has already resulted in loss of capacity and complete physical dependency:

1. Keep me comfortable and allow natural death to occur. I do not want any medical interventions used to try to extend my life. I do not want to receive nutrition or fluids by tube or other medical means.
2. Keep me comfortable and allow natural death to occur. I do not want medical interventions used to try to extend my life. If I am unable to take enough nourishment by mouth, however, I want to receive nutrition and fluids by tube or other medical means.
- K 3. Try to extend my life for as long as possible, using all available interventions that in reasonable medical judgment would prevent or delay my death. If I am unable to take enough nourishment by mouth, I want to receive nutrition and fluids by tube or other medical means.

Pain Relief

No matter what my condition, give me the medicine or other treatment I need to relieve pain and suffering even if doing so would shorten my life.

Effect of Stated Preferences

- K 1. I realize I cannot foresee everything that might happen after I can no longer decide for myself. My stated preferences are meant to guide whoever is making decisions on my behalf and my health care providers, but I authorize them to be flexible in applying these statements if they feel that doing so would be in my best interest.
2. I realize I cannot foresee everything that might happen after I can no longer decide for myself. Still, I want whoever is making decisions on my behalf and my health care providers to follow my stated preferences exactly as written, even if they think that some alternative is better.
