About Me:

After beginning my professional career in environmental research and as a high school science teacher, I transitioned into the educational publishing industry as a writer and editor. In 2013, I joined an educational content development firm. Five years later, my company discovered EOS, we made the decision to form our first leadership team, and I joined as our head of operations. We embraced EOS to uncover our Core Values and develop our first Vision/Traction Organizer.

A PASS EDUCATIONAL GROUP / INTEGRATOR & CEO

- Working with the Visionary, an internal self-implementer, and an EOS Implementer, facilitated the articulation of the organization's Core Focus, Core Values, V/TO.
- Responsible for budget, P&L results, and business plan creation & execution of a multimillion dollar entrepreneurial organization.
- Aligned company initiatives with strategic objectives through setting and completing high-impact Rocks, and developing an effective Scorecard, and ensuring effective KPIs for each employee.
- Spearheaded the acquisition of a competitor and completed due diligence, integrating new clients, services, and employees into our company's core business.

VICE PRESIDENT OF CONTENT DEVELOPMENT

- Played a key role in supporting the organization's growth by building operational functions, creating department processes, and establishing department KPIs.
- Expanded content development capacity and fostered customer relationships with key members of the educational publishing and EdTech industry.
- 100% Rock completion rate for the operations department.
- Trained directors across STEM, Humanities, Instructional Design, Production, and Career/Technical Education, ensuring their ability to coordinate and proficiency in various project types.
- Ensured team performance and successful project execution.

EXECUTIVE DIRECTOR OF SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS (STEM) DEVELOPMENT

- Planned and managed complex product development projects for a wide range of publishers, educational institutions, and other providers.
- Controlled and monitored budgets, schedules, and workflows
- Ensured high-quality output through practical training and collaboration with vendors, writers, editors, and project managers.
- Curated client content for team learning and created strategies for successful project implementation.
